PROFILE

I am a passionate and results-driven Full Stack Developer with a strong foundation in both front-end and back-end technologies. With hands-on experience in building responsive web applications and dynamic user interfaces.

PROJECTS

Fitness Website

Bootstrap,HTML,CSS

- A responsive fitness landing page built with HTML, CSS, and Bootstrap, featuring modern UI components, service sections, and a call-to-action layout. Designed for promoting gyms and fitness programs.

Product Management System

React-js

- A React.js CRUD application for managing products, allowing users to add, update, and delete items. Integrated with Bootstrap styling for a professional dashboard-like UI.

Blog Project (Passport.js)

Node js,Express

- A full-stack blogging platform built with Node.js, Express, MongoDB, and Passport.js authentication. Features user registration, login, and blog post management with secure sessions.

Cart Project

HTML,CSS,Javascript

- An e-commerce cart system developed using HTML, CSS, and JavaScript. Implements add-to-cart, quantity update, and dynamic price calculation with a user-friendly interface.

Croma Clone

HTML,CSS,Bootstrap

- A front-end clone of Croma's e-commerce website, developed with HTML, CSS, and Bootsrap. Includes product listings, categories, and a responsive layout for seamless browsing.
